

# JUST CAUSE 2

## MISSION NOTES

SQUARE ENIX

## 1. GRAPPLE

**HINT:** Remember to TAP LB to reel in (or pull objects towards you if they are light) and HOLD LB to dual hook.

The  on the reticle will grow larger and rotate differently when a dual hook is active. The dual hook is cancelled by tapping LB.

## 2. SABOTAGE/CHAOS

**HINT:** Create Chaos to unlock larger areas of influence (more missions and challenges) and progress you through the story of Just Cause 2. Chaos points are earned from completing missions and through Sabotage. Sabotage items are denoted by the red banding and the white Panaun star.

Remember to look out for dangerous Colonels whose assassination will also earn you Chaos points!

## 3. SLINGSHOTTING

**HINT:** When slingshotting use left stick to steer and right stick for your fine aiming adjustments. This will make your parachute easier to control. Keep low to the ground and grapple in front of you to keep moving at high speed.

Remember to look for the  on the reticle to show when the ground is in grapple range.

MISSION NOTES

## 4. PDA

**HINT:** The PDA is a great way to navigate around Panau. The waypoint marker is the best way to plot your route to a desired location. Simply move the cursor to the location and press the X button to place a waypoint. This marker will be visible on the HUD upon exiting the PDA.

The PDA is also the place to track your many stats in the world of Just Cause 2. Use the PDA to track your headshots, piñata kills, bridge limbos, stunt driver points...

## 5. BLACK MARKET

**HINT:** The Black Market is a great way to drop new weapons and replenish ammo for current weapons... even in a combat situation.

Complete Race Challenges and find cash stashes to earn money to spend in the Black Market.

Call in the Black Market helicopter by pressing down on the directional pad to select the beacon, and then pressing Y to throw the beacon. The Black Market can also be used to call in an extraction. This is the quickest way to move around the large map of Panau.
